In this heat Georgena, who had already secured two heats, and Quarterstuff were engaged in a hot fight on the outside, and the trio went under the wire heads apart. To every one outside the judges' stand Georgena appeared to have won the heat. To the judges, however, the outside horse seemed to have the advantage, and the heat was awarded to Geers. The decision did not meet with the approval of the spectators, and they expressed their opinion in the matter most emphatically.

Emily was favorite in the betting on the race selling even with the field, and, had she been trusthy, would have been an easy winner, but bad breaks permitted Georgena, the best of the others.

NEW-YORK TWICE A WINNER

CLEVELAND BEATEN IN TWO POST PONED GAMES.

Tebeau and his tribe of Indians made a trip from Philadelphia to New-York yesterday for the purpose of playing off two postponed games. They were played as a double-header, and New-York took both. New-York won the first game in the second inning, when two singles, a passed ball, a two-bagger and a home run netted them four runs. McAllister relieved Cuppy in the fourth inning, and McAllister relieved Cuppy in the fourth inning, and only one hit was made off him, a home run by Van Haitren. Seymour pitched all kinds of ball, but with men on bases he managed to pull himself out of the hole, except in one case, where, win the bases full, he forced Burkett over the rubber by giving a base on balls. In the second game, being able to hit the ball when men were on bases was what won. From their seven hits the local men got a total of thirteen bases. Ruste was in good shape and kept Cleveland's hits scattered. Scores: CLEVELAND NEW-YORK.

When the horns were blown yesterday morning the scramble began in the night some of the baymen had formed partnerships, and had their plans all laid out. Soon after daybreak the scythes began to get in their work, and were kept at it until last evening. It is an unwritten law, observed by the haymen, that a man is entitled to all the hay he can mow around without crossing the mown hay of another.

The indications are that more than five hundred tons of hay will be gathered, and as the baymen receive from 45 to 100 at on for the hay, according to the quality, it can be seen that they make their harvesting profitable.
